            Attached M/S/A  
10:05 5. Treasurers Report: Robert Takacs  
            Attached M/S/A  
10:10 6. Presidents Report: Sam Huang  
            Scholarships: Russ

National Report: Brian McGlynn; Discussed the current national activities, as it affects the FAR Part 147. In 05 National decided not to be involved in LSA curriculum leave it with EAA, National is now talking about revisiting

the LSA curriculum. General discussion evolved around Western Region developing our own curriculum and making it available for all Western Region Schools. Our schools have the best position in teaching the curriculum. Bill O'Brian in his first presentation on LSA to National recommended that AMTS schools are the best prepared to teach the curriculum. Members present agreed that the Western Region should develop this curriculum, Sam will look into setting a committee to develop the 120 hour course, it is recommended that Western Region meet somewhere and develop the curriculum. The membership requested that Brian McGlynn report back to national and request that the national again begin looking at a curriculum that provides instruction in all five LSA categories.

Web Site: [www.atec-wr.org](http://www.atec-wr.org) is up and we are listed on the national site, [www.atec-amt.org](http://www.atec-amt.org)

Travel Funds: Sam recommended that the membership, look to Northrop Rice Foundation for help with travel funds. National is working with Cathy Nusbaum, - South West Airlines, sits on the National Board for discounts of donations of airline tickets. Brian McGlynn will report on the progress at the Spring meeting.

NCATT: Sam reported on current progress on the Avionic Certification, for those interested it is recommended that those members interested to log on the NCATT.

Delinquent National Membership: Brian McGlynn discussed that there were delinquent National Membership in the Western Region. Please clear your memberships status with the National.
